## **Extension Notice**

In response to the numerous requests from students who faced challenges in submitting their fees or encountered other issues, we have decided to extend the deadline for fee submission. This extension is intended to allow all registered applicants who have not yet paid their fees, as well as those who have not yet registered but wish to apply, have the opportunity to compete and demonstrate their abilities without missing out.

The link for fee submission will remain open for an additional three days, i.e. 21-23 June 2024. We hope this extension will provide sufficient time for everyone to complete their submissions.

Please make sure to take advantage of this extended deadline and submit your fees within the specified period.
